

QuadraTouch™ V2.6 Software Change Log

Admin Overrides / Special Features / Special Timers

- Programmable Load Aux Time Delays 2-15s
- Programmable Dry Fire EMOV Lock Delay 20-240s
- Programmable Flame Out Delay Time 45-90s
- Programmable Air Switch Delay Time 5-30s
- Programmable User Unload Delay Time 1-5min
- Load Override
- Aux1 Override
- Aux2 Override
- Load Auxiliaries Enabled / Disabled
- Prox Switch Override
- Air Switch Override
- Flame Sense Override (if Enabled)

Fixed Auto Temp Adjust

Meter roll reference voltage at 0 vdc when not in use

Enhanced Dry-Fire Mode

Programmable Fan Start Time Delay

Programmable Heat Delay (Amount of time after turning fan on before putting power to heater board)

Fix Input MST Sensor reading (when sensor reads less incoming than outgoing)

Grain Transfer mode now allows the use of fan(s) during transfer.

Manual to Auto and Auto to Manual

Air Switch doesn't matter until heat coil is energized.

Changed the look of the "Reset" button.

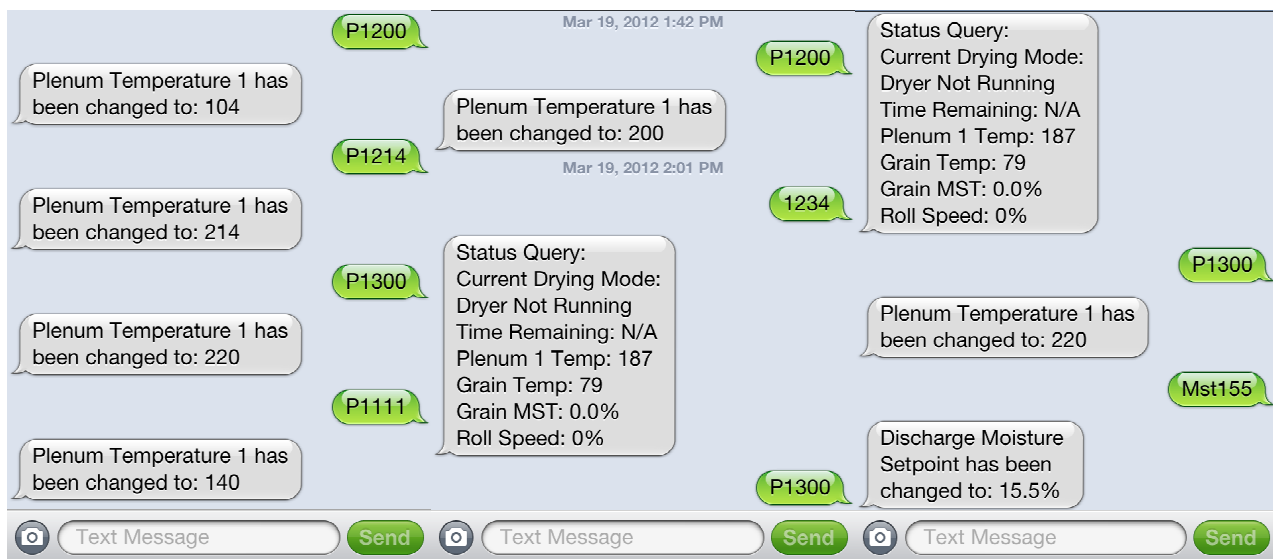

Single Fan Centrifugal (no longer needs jumper in PLC ; touch screen will ask during fan selection / Double Stack dryer asks if it's bottom plenum is being run in heat cool

Autobatch now starts up automatically without Plenum Stabilization. It was confusing for some before.

Fan/Heat/OFF control during continuous flow operation.

New GSM Features

- Changed Plenum Temp(s) Remotely
 - Example : code “P2150” changes Plenum 2 to 150° (not case sensitive)
 - System sends a confirmation message.
- Change Discharge MST Setpoint Remotely
 - Example: code “MST155 changes Discharge MST setpoint to 15.5%
 - System sends a confirmation message.
 - (slightly case sensitive: “MST”, “mst” , or “Mst” will work)
- Change Column Temp in Autobatch Remotely
 - Example code “C100” changes Column Temp Setpoint to 100°
- Added display info:
 - Current Mode of Operation
 - Time Remaining if Applicable
- Fault conditions now have wire #'s if applicable.

Manual Operation Shortcut added to “Start” menu.

Because of programming space limitations, 2.6 will need to be released in two language packs. Both programs will contain English.
